

05 February 2025

Dear Parent/Carer,

We are writing to inform you of an important change regarding our home learning platform, which we are introducing in response to valuable feedback we have received from parents about the current use of Arbor for setting home learning.

After reviewing the concerns raised, we have decided to transition to a new home learning platform, Class Charts, which will better support both students and parents in managing home learning tasks. We understand the importance of providing a user-friendly, efficient system that supports our students, and we are confident that this new platform will enhance the learning experience for everyone.

The new platform will launch after half term, week commencing 24 February 2025. Class Charts enables you to access your child's weekly timetable, view assigned home learning and your child's submission of home learning. All home learning will be set on Class Charts and you will have the ability to see when they have submitted and any feedback the teacher may give to the student.

Please note, Arbor will continue to be used for all communications and information, including attendance, behaviour, and other administrative matters. The new platform will solely be dedicated to home learning, ensuring a more focused and effective tool for both students and parents.

Each child has a unique Class Charts access code. These activation codes will be issued to all students during the next two weeks. If they do not have their activation code, please direct them to speak to their form tutor in the first instance. Over the next fortnight students will have the opportunity to access Class Charts to ensure they are able to do this independently. A student guide on how to access home learning will also be made available via the school website.

All parents will have a unique login for their child. For those parents/carers that have more than one child at Temple Moor, you do not need two separate accounts, you can enter additional codes directly into your created account. Class Charts for parents can be accessed via our website, or through their parental app. Your unique parent code details will be sent to you via the Arbor App on Friday 7 February 2025. You will use this code to set up your Class Charts parent account. To register and sign in, please follow the steps outlined in the attached document.
